ABOUT HOPONE INTERNET CORPORATION

:: HopOne Internet Corporation is an enterprise-grade global cloud services company, operating a low-latency coast-to-coast IP backbone and multiple data centers across the US. As a cloud-based Infrastructure-as-a-Service (IaaS) provider, we provide a comprehensive range of services using our east and west coast data centers connected by our low latency coast-to-coast IP backbone. In addition to the traditional data center services such as colocation and IP transit, we offer a wide array of managed services, private, public and hybrid deployments on our advanced cloud platform and content delivery through our global content delivery network.

:: We provide services to businesses with mission-critical needs including government agencies, financial institutions, carriers and content providers. Our services use a highly customizable service array coupled with dedicated, 24x7x365 on-site and instantly reachable, highly skilled professional network and systems engineers.

:: All HopOne services are SSAE-16 SOC-1 audited and ISO 9001 & ISO 27001 certified and we have the impeccable performance and reliability proven record (100% uptime and zero packet loss for the past 10+years) that mission-critical clients demand.
